EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Eric Robbins on August 31, 2004.

The application has been amended as follows:

On page 9, line 18, “.” has been changed to --.--.

On page 12, line 1, “springs 56 and 57” has been changed to --hinges 56 and 57--.

2. The following changes to the drawings have been approved by the examiner and agreed upon by applicant:

Reference character “58” in Figure 4 has been deleted.

In order to avoid abandonment of the application, applicant must make these above agreed upon drawing changes.

3. The following is an examiner's statement of reasons for allowance:

The recitations of the specific features of the cargo protecting system for a pickup truck in claims 1 and 37 including especially the construction of the first chamber being defined by a first shell having first and second openings, the second chamber disposed substantially directly beneath the bed floor and adjacent to the second opening, the second chamber being separate from the first chamber and accessible from the first chamber through the second opening is not taught nor is fairly suggested by the prior art of record.

Art Unit: 3612

The recitations of the specific features of the cargo protecting system for a pickup truck in claim 18 including especially the construction of the securement mechanism and the opening mechanism both being disposed entirely below the second support surface when the closure member is in the first position is not taught nor is fairly suggested by the prior art of record.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

4. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.

The cited references show several other cargo protecting systems similar to that of the current invention.
